COMMENTS: We are over our target with our annual estimates. With the receipt of our second quarterly payment, it appears that our overall community income has rebounded and is more in line with the growth trends we saw prior to the pandemic. As such, we have begun to adjust our expected total income tax receipts for the fiscal year up with the preparation of our November forecast. As can be seen in the income tax graphs and the numbers above, our collections at this point in the year are well over last year where we were still experiencing the effects of the pandemic.

Percent Of Budget Year Completed		4 months		33.33%

COMMENTS: The current total annual estimate has not taken into account the revenue impact from the implementation of the new school funding formula. However, we did attempt to estimate the monthly impact of the originally anticipated October implementation, as well as the return of the final portion of our State funding cuts from May 2020. The implementation of the new formula has been delayed until December. So, we will see significant variance from our estimates until December. Depending on how the State handles the payment, we may see the recapturing of this variance in December (lump-sum true-up payment) or over the remainder of the year (spread into remaining payments). The annual estimates in our report will be updated in November with adjusted five-year forecast projections.

Percent Of Total Estimate Received				50.19%
Percent Of Budget Year Completed		4 months		33.33%

COMMENTS: The new state funding formula is now funding students where they are taught instead of having additional revenue additions for items like open enrollment, special needs scholarships, and community schools. These changes will adjust the anticipated amounts collected for this fiscal year. This month we received tuition payments that work through the State funding system for court-placed students in our District. This is the reason for the variance from expected receipts. Another revenue in this funding area is the advance in from food service fund that was received, which has increased the amount reported. Overall, we are on target with our annual estimates.

Total 2021-2022 Estimate				\$47,617,071
Percent Of Total Estimate Spent				31.18%
Percent Of Budget Year Completed		4 months		33.33%

COMMENTS: We are on target with our annual estimates of total expenditures and continuing to trend slightly under. Our favorable variance is primarily due to our salaries and wages in personal services, benefits, and purchased services. Further discussion will be had for these areas on the specific sections related to these expenditures areas.

COMPARISON OF TOTAL MONTHLY PERSONAL SERVICES (SALARIES & WAGES)

COMPARISON OF TOTAL YEAR-TO-DATE PERSONAL SERVICES (SALARIES & WAGES)

Total 2021-2022 Estimate				\$26,626,608
Percent Of Total Estimate Spent				31.10%
Percent Of Budget Year Completed		4 months		33.33%

COMMENTS: We are on target with our annual estimates. We have continued to be slightly under projections for our salaries and wages. We believe there are two reasons for this current trend. First, our school district has not been immune to labor shortage just like many business sectors. There are some positions that we are still attempting to fill and some positions that were filled after to start of the school year. In addition, we have estimated average experience level we try to target for new hired positions when we have retirements and resignations. We saw a large amount of resignations and retirements at the end of the 2020-2021 school year and the average experience and replacement wages for the new hires tend to be lower than the positions they are replacing. We believe these factors are lending to the overall positive variance at this time. We plan to adjust our annual estimates down slightly with the November forecast projections.

COMPARISON OF TOTAL MONTHLY EMPLOYEES' RETIREMENT/INSURANCE BENEFITS

COMPARISON OF TOTAL YEAR-TO-DATE EMPLOYEES' RETIREMENT/INSURANCE BENEFITS

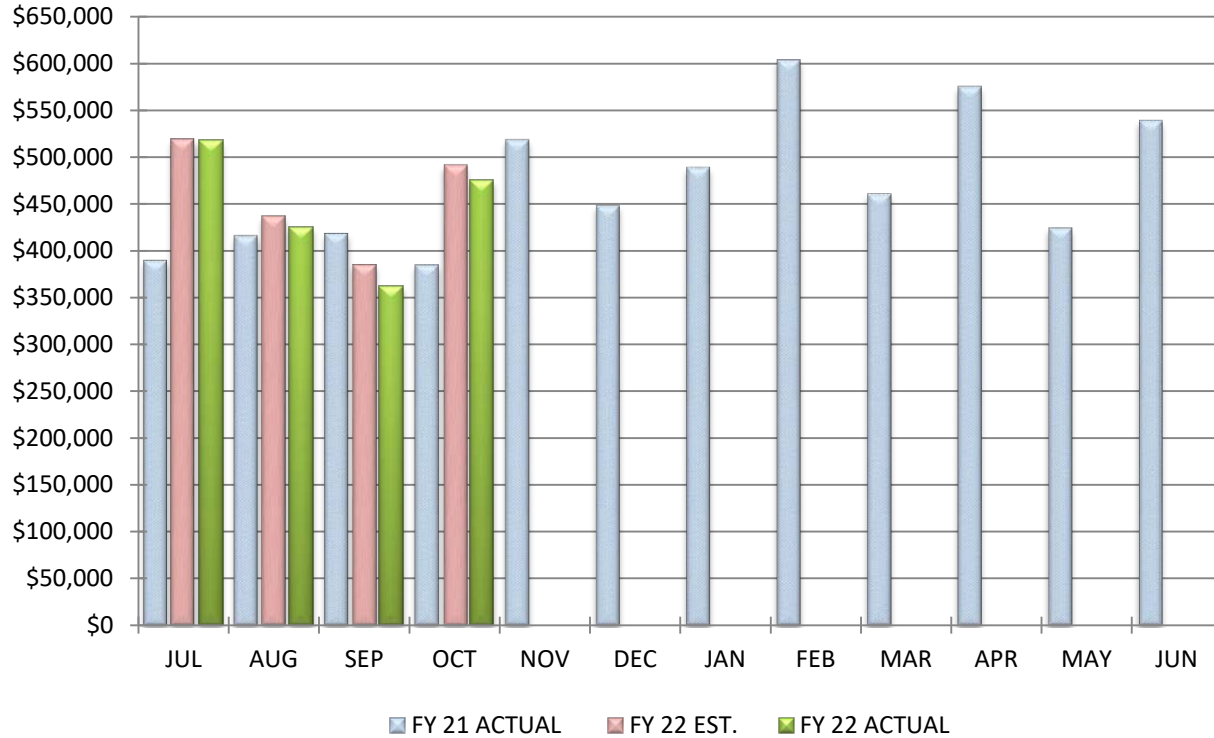

COMPARISON OF EMPLOYEES' RETIREMENT/INSURANCE BENEFITS

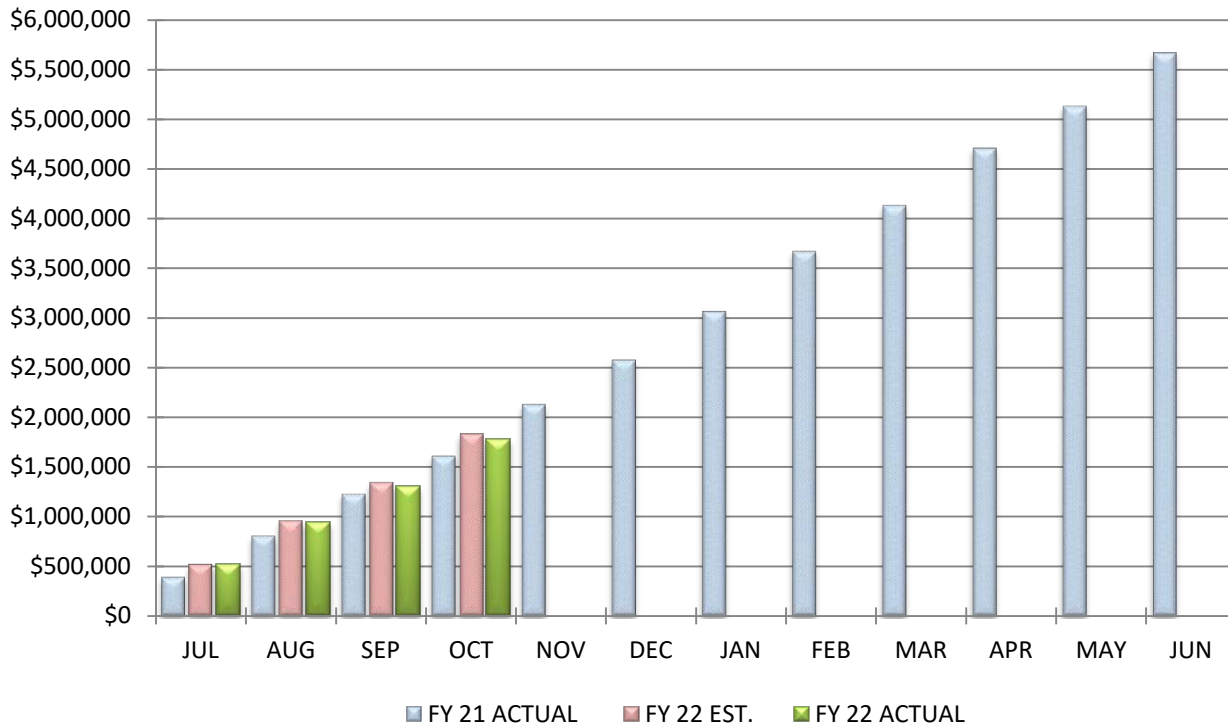

October 31, 2021				
		MONTH		YEAR-TO-DATE

Variance From Estimate	UNDER	-5.81%	UNDER	-1.66%
Actual Prior Year		\$944,506		\$3,898,755
Total 2021-2022 Estimate				\$12,533,283
Percent Of Total Estimate Spent				30.55%
Percent Of Budget Year Completed		4 months		33.33%

COMMENTS: We are under our estimates both monthly and annually at this time. We noted previously that our wages and salaries are trending a little under estimates. This can also have an impact our retirement benefits and Medicare costs that are paid as a percentage of wages. In addition, we had updated enrollment file feeds to our insurance provider and had performed a monthly bill reconciliation and noted retired or resigned individuals were still in our September billing. Due to billing cycles for insurance, we had paid for the September billing, and in October, we received a credits back for the amounts billed in September, which reduced our overall benefits costs under the anticipated amount.

COMPARISON OF TOTAL MONTHLY PURCHASED SERVICES

COMPARISON OF TOTAL YEAR-TO-DATE PURCHASED SERVICES

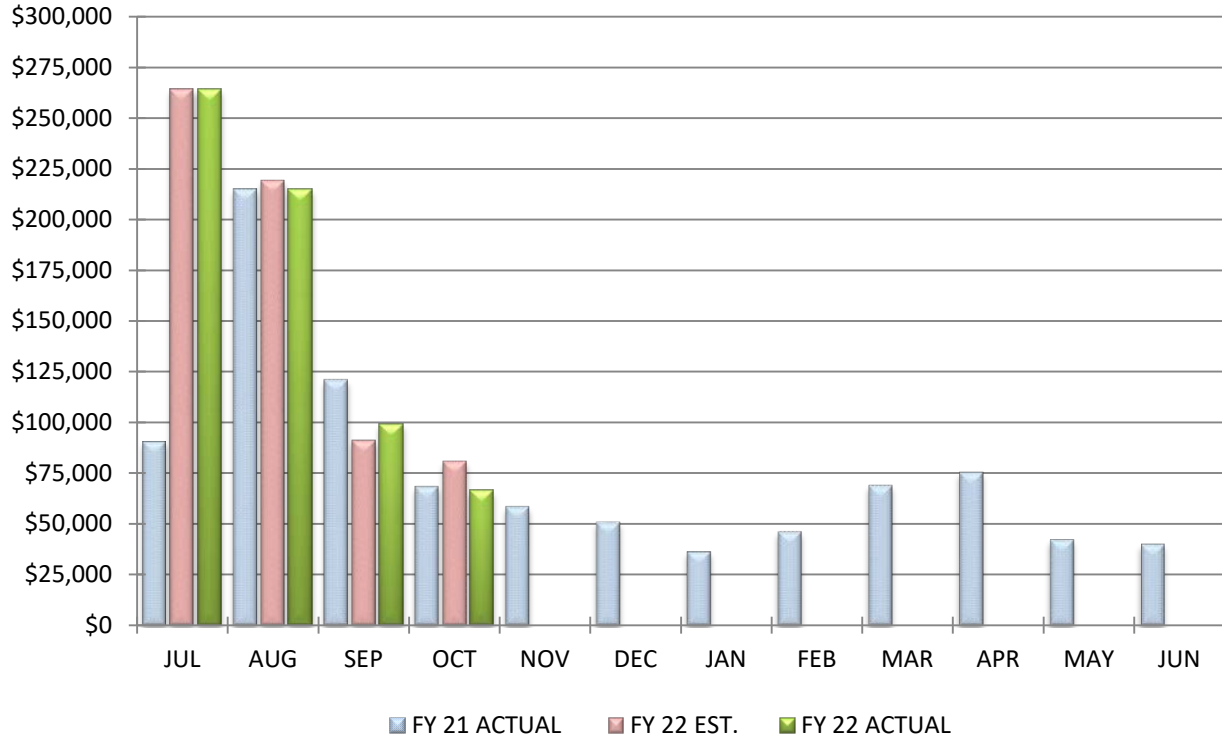

COMPARISON OF PURCHASED SERVICES

October 31, 2021

		<u>MONTH</u>		<u>YEAR-TO-DATE</u>
Actual Service Expenditures		\$475,374		\$1,778,381
Estimated Service Expenditures		\$490,690		\$1,830,605
Variance From Estimate	UNDER	(\$15,316)	UNDER	(\$52,224)
Variance From Estimate	UNDER	-3.12%	UNDER	-2.85%
Actual Prior Year		\$384,719		\$1,609,022
Total 2021-2022 Estimate				\$6,732,972
Percent Of Total Estimate Spent				26.41%
Percent Of Budget Year Completed		4 months		33.33%

COMMENTS: We are on target with our annual estimates and continue to have a favorable variance. There are several factors at play in our purchase services line. We are anticipating a significant increase in this expenditure area due to utilities on our new high school and athletic facilities as this will be an addition in this school year that we have not had for previous school years. Counteracting this increase and causing the favorable variance is having some educational support positions that we contract with the ESC of Central Ohio still being unfilled or being filled after the start of the school year and not being billed yet. A further impact on this budget area will be seen, both now and in the future, due to the changes in the state funding formula and how students are funded where they are educated. Just like was noted in the other revenues line, we have historically had to post an expenditure for items like open enrollment, community school transfers, scholarships and other state tuition programs. These deductions should no longer occur under the new formula. While we wait for the new formula to be rolled out we have attempted to account for these impacts in our budgeting, but this too is lending to favorable balance. With the November forecast update, we do plan to adjust this line for expected annual costs.

COMMENTS: We are on target with our annual estimates but running slightly under projected costs. Supplies and materials can be subject to timing differences each year between with when invoices are received and when payments are needed to be made. We believe this is primarily the reason for our favorable variance at this time.
